## My Goals:

To obtain a position as a web developer, overcome challenges through Reflexion, Teamwork and Creativeness in order to develop digital solutions for companies. I am a junior developer, specialized in Ruby on Rails. Always eager to learn.

## Professional Experiences:

**Internship, Billy - Bikes, Brussels**
Apr 2016 - Sept 2016
Assisting the founders of the company in the vital first step of their venture. Gained knowledge on building a start-up from ground zero.
Management of the bike fleet and acquisition of Beta-testers.

**MVC project, Le Wagon, Brussels**
Feb 2020 - Mar 2020
Established an agile scrum framework consisiting of sprints and mutliple daily updates to succesfully develop a functional MVP.
Have a look at my project:
https://small-things-app.herokuapp.com

**Capstone Project, Vesalius College**
Jan 2019 - May 2019
We were given six months to come up with a project, developing three different prototypes through iteration processes, until we, as a team, come up with an innovative proposal that would be challenged by an audiance of professionals..
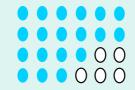

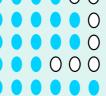

**Hygeco, Garges les Gonesses, France**
Apr 2015 - Nov 2015
Marketing Intern
